

Hw 7: For C9 p16,

1. Identify transfer vertices,
2. Label the turning pair edges
3. Draw corresponding rotation graphs
4. Identify fundamental circuits
5. Sketch "one" functional representation

Hw8: For the gear train shown below, please find

- (a). its graph representation,
- (b). the fundamental circuits,
- (c). for link 1 as the input, link 2 as the output, find ω_2/ω_1 by fundamental circuit method.
